SIR:

Included with the attached Form PTO-1449 is a French Search Report relating to the corresponding French application and a copy of the reference cited therein, which have been classified as A (document of relevance against at least one claim or document defining the general state of the art) and D (cited in the application).

The Examiner is courteously requested to consider this reference in accordance with Patent and Trademark Office policy, as set forth in the paragraph bridging pages 600-67 and 600-68 of M.P.E.P. 03, Rev. 14, November 1992, which states:

Where the information listed is not in the English language, but was cited in a search report or other action by a foreign application, the requirement for a concise explanation of relevance can be satisfied by submitting an English language version of the search report or action which indicates the degree of relevance found by the foreign patent office. This may be an explanation of which portion of the reference is particularly relevant, to which claims it applies, or merely an "X", "Y", or "A" indication of a search report.

This information is being submitted prior to receipt of the first Office Action on the merits. Therefore, no fee is required. See 37 C.F.R. § 1.97(b)(3).
